Supercharge Your SmartNICs with Software

CodiLime – Delivery Excellence for your N.E.E.D.S.

Excellent digital products require reliable hardware

At CodiLime, we specialize in **unleashing your hardware's full potential** by **accelerating and offloading** crucial parts of the system: virtual network functions, security features or application workload.

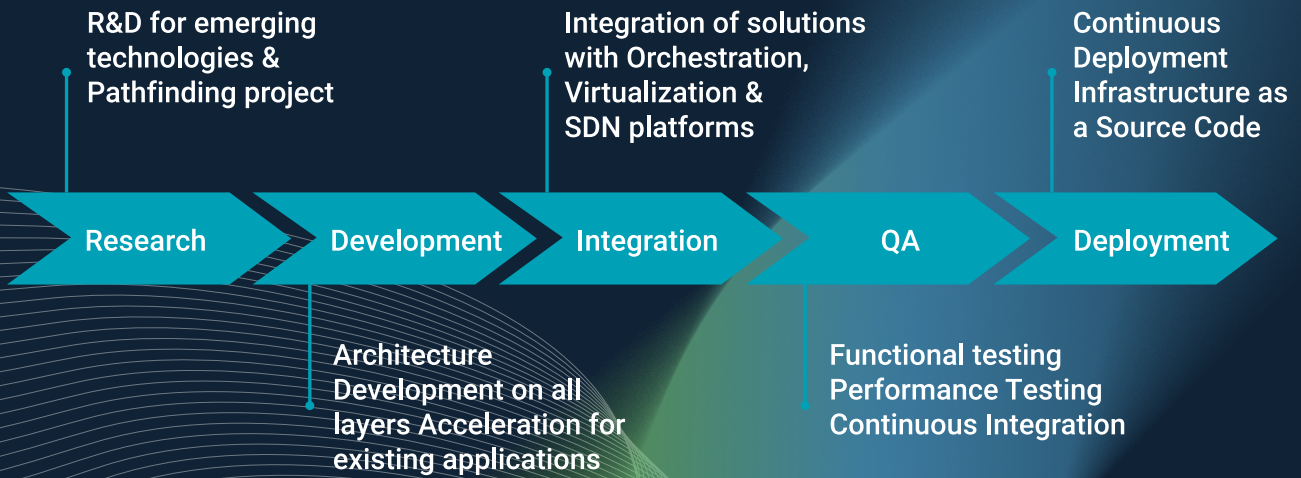

INNOVATE YOUR SMARTNIC WITH US

SmartNIC Expertise Meets Delivery Excellence

Our mission is to provide you with the best solutions for your hardware. Whether it is the programming of your SmartNICs or the offloading of application workloads, we have years of experience and top talent on board to meet your needs.

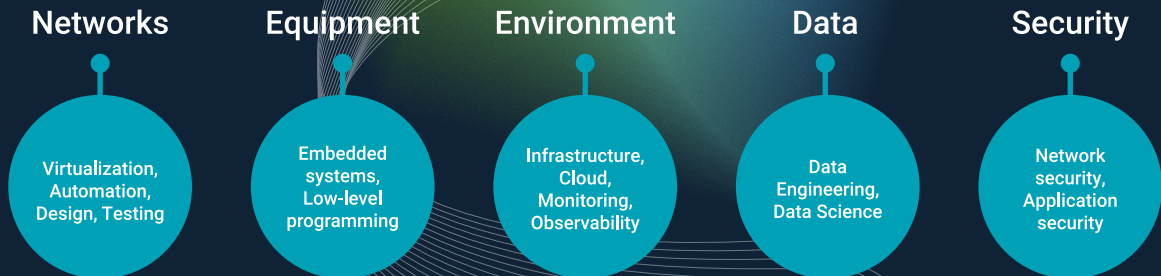

We provide **Enablement & Customization as a Service** - a smart solution for your SmartNICs

Unleash the Potential of SmartNICs!

We disrupt the network industry with custom-tailored software!

SmartNICs expertise is part of our DNA but we can do so much more because CodiLime is a **strategic engineering partner** for technology-driven companies. We focus on your **N.E.E.D.S.**

Our services cover the whole **software product development cycle**. No matter at what stage your product or project is, we have the skills to help you get the best result possible.

CodiLime. Trusted by Leaders.

**Let's Innovate
SmartNICs Together!**
